

# MANAGING LONG COVID

The Third Wave Psychologist is very pleased to host a 4-session online workshop dedicated to teaching self-management skills for long COVID symptoms. Facilitated by a clinical psychologist, the workshop explores the common symptoms of long COVID, the impact of these symptoms on daily life & evidence-based self-management skills.

Topics include:

**Symptoms of long COVID**

**Developing self-management skills**

**Developing wellbeing & relaxation skills**

*What to Expect?*

The workshops are run as an online educational class, with teaching & skills building components. There is no pressure for attendees to speak or share their personal thoughts, feelings or experiences, however they are welcome to do so should they feel comfortable.

## COURSE DETAILS

The workshop is run online regularly throughout the year

The duration of the workshop is 2 hours, once a week, for 4 weeks

**Workshop Fee: £160**

For more information or to register your interest in attending the next online course please email your name & contact details to:
